

CMTSE - THE DIFFERENCE

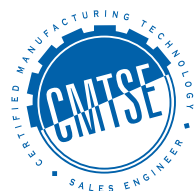

CLIENT VALUE MESSAGE

- V** | Validated knowledge and experience through a standardized nationwide exam.
- A** | Advanced experience and skills that produce customized business, machining and manufacturing process solutions.
- L** | Leadership and broad-based technical, sales and business knowledge that ensures a consultative partnership with manufacturing customers.
- U** | Understanding of each customer's unique manufacturing needs, with the ability to propose customized solutions.
- E** | Excellence through professional growth and commitment to continuing education, through the CMTSE recertification process.

You are the most important component in successfully marketing your CMTSE credential.

Earning the CMTSE designation is much more than successful completing of the exam - it marks the beginning of your lifelong commitment to professional development and sales excellence.

CMTSE, you've earned it - promote it!
